

§ 365.509 Requirement to notify FMCSA of change in applicant information.

(a) A motor carrier subject to this subpart must notify the FMCSA of any changes or corrections to the information in parts I, IA or II submitted on the Form OP–1(MX) or the Form BOC–3—Designation of Agents—Motor Carriers, Brokers and Freight Forwarders during the application process or after having been granted provisional operating authority. The carrier must notify the FMCSA in writing within 45 days of the change or correction.

(b) If a carrier fails to comply with paragraph (a) of this section, the FMCSA may suspend or revoke its operating authority until it meets those requirements.

§ 365.511 Requirement for CVSA inspection of vehicles during first three consecutive years of permanent operating authority.

A Mexico-domiciled motor carrier granted permanent operating authority must have its vehicles inspected by Commercial Vehicle Safety Alliance (CVSA)-certified inspectors every three months and display a current inspection decal attesting to the successful completion of such an inspection for at least three consecutive years after receiving permanent operating authority from the FMCSA.

APPENDIX A TO SUBPART E OF PART 365—EXPLANATION OF PRE-AUTHORIZATION SAFETY AUDIT EVALUATION CRITERIA FOR MEXICO-DOMICILED MOTOR CARRIERS

I. GENERAL

(a) Section 350 of the Fiscal Year 2002 DOT Appropriations Act (Pub. L. 107–87) directed the FMCSA to perform a safety audit of each Mexico-domiciled motor carrier before the FMCSA grants the carrier provisional operating authority to operate beyond United States municipalities and commercial zones on the United States-Mexico international border.

(b) The FMCSA will decide whether it will conduct the safety audit at the Mexico-domiciled motor carrier's principal place of business in Mexico or at a location specified by the FMCSA in the United States, in accordance with the statutory requirements that 50 percent of all safety audits must be conducted onsite and on-site inspections cover

at least 50 percent of estimated truck traffic in any year. All records and documents must be made available for examination within 48 hours after a request is made. Saturdays, Sundays, and Federal holidays are excluded from the computation of the 48-hour period.

(c) The safety audit will include:

(1) Verification of available performance data and safety management programs;

(2) Verification of a controlled substances and alcohol testing program consistent with part 40 of this title;

(3) Verification of the carrier's system of compliance with hours-of-service rules in part 395 of this subchapter, including record-keeping and retention;

(4) Verification of proof of financial responsibility;

(5) Review of available data concerning the carrier's safety history, and other information necessary to determine the carrier's preparedness to comply with the Federal Motor Carrier Safety Regulations, parts 382 through 399 of this subchapter, and the Federal Hazardous Material Regulations, parts 171 through 180 of this title;

(6) Inspection of available commercial motor vehicles to be used under provisional operating authority, if any of these vehicles have not received a decal required by § 385.103(d) of this subchapter;

(7) Evaluation of the carrier's safety inspection, maintenance, and repair facilities or management systems, including verification of records of periodic vehicle inspections;

(8) Verification of drivers' qualifications, including confirmation of the validity of the Licencia de Federal de Conductor of each driver the carrier intends to assign to operate under its provisional operating authority; and

(9) An interview of carrier officials to review safety management controls and evaluate any written safety oversight policies and practices.

(d) To successfully complete the safety audit, a Mexico-domiciled motor carrier must demonstrate to the FMCSA that it has the required elements in paragraphs (c)(2), (3), (4), (7), and (8) above and other basic safety management controls in place which function adequately to ensure minimum acceptable compliance with the applicable safety requirements. The FMCSA developed a "safety audit evaluation criteria," which uses data from the safety audit and roadside inspections to determine that each applicant for provisional operating authority has basic safety management controls in place.

(e) The safety audit evaluation process developed by the FMCSA is used to:

(1) Evaluate basic safety management controls and determine if each Mexico-domiciled carrier and each driver is able to operate
